

JACK MEAGHER INSTITUTE  
OF SPORTS THERAPY

**“Teaching Meagher Method Sportsmassage since 1998”  
Robert Altman - Director**

It is with great pleasure that I give my endorsement and support to Melissa Monster-van Golverdingen to carry on and teach the original work started by Jack Meagher in the field of Equine Sportsmassage and Muscular Kinetics. I have no doubt she will carry on the tradition of quality and honor held by the Jack Meagher Institute and will represent this quality in Europe as JMI has in the US.

I have been looking for a student/associate to teach in Europe. It has taken me a while but I am comfortable with the knowledge that Melissa is the one I have been looking for. She has studied with me extensively both in Europe and the United States. She has shown that she not only has an excellent eye for movement but a gift for the therapy itself. Melissa has a firm understanding of the theory and principles of Jack’s work and the ability to clearly present it to students and practitioners at all levels. I trust she will be a gifted teacher.

My best wishes for success go out to Melissa and “Freedom of Motion.” I am thrilled beyond words that the Meagher Method will finally be taught in its original form in Europe.
